## PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience building scalable, high-performance web applications using React.js, Node.js, PHP, and MySQL. Proven ability to architect RESTful APIs, optimize database schemas, and deliver responsive UIs with measurable impact. Experienced in AI Engineering, SEO optimization, and content strategy. Adept at cross-functional collaboration in fast-paced environments, with a strong foundation in CS fundamentals and a track record of solving complex engineering challenges.

## TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, jQuery, Bootstrap, Responsive Design

**Backend:** Node.js, Express.js, PHP, RESTful API Development

**Databases:** MySQL, MongoDB, Database Schema Design & Query Optimization

**Tools & DevOps:** Git, GitHub, GitLab, NPM, Postman, XAMPP, JSON

## PROFESSIONAL EXPERIENCE

### LEGALS365

June 2023 – Present

Full Stack Developer

India

- Developed and deployed responsive web applications using React.js, Node.js, PHP, and MySQL, maintaining **99.9% uptime** for thousands of concurrent users.
- Engineered and integrated RESTful APIs for dynamic data handling, reducing page load times by **40%** and significantly improving user experience and Core Web Vitals.
- Designed and optimized MySQL and MongoDB schemas, achieving **50% faster query performance** for large-scale, data-intensive applications.
- Implemented secure authentication systems with role-based access control (RBAC) across multiple production projects.
- Applied SEO best practices and content optimization strategies, improving organic search rankings and site visibility for client platforms.
- Collaborated with cross-functional teams (design, QA, product) to deliver feature-rich applications within aggressive deadlines.

### VSIT.IN

January 2023 – June 2023

Full Stack Developer Intern

India

- Built responsive frontends and backend services using modern web frameworks; contributed to production-level codebases from day one.
- Participated in peer code reviews, adopting clean-code and SOLID principles for maintainable, scalable software.

## KEY PROJECTS

### Legals365.com | PHP, MySQL, JavaScript, Bootstrap

Legal Services Platform

- Built a comprehensive legal services platform serving clients and legal professionals with a fully responsive, SEO-optimized design.
- Developed an Admin Panel with case management, blog control, and lawyer profile management; implemented RBAC for clients, lawyers, and admins.
- Integrated dynamic CMS for legal resources, case studies, and client testimonials, improving content discoverability via on-page SEO.

### HRMS | PHP, MySQL, HTML, CSS, JavaScript

Human Resource Management System

- Engineered a full-featured HRMS web application for employee, attendance, and payroll management, boosting HR workflow efficiency by **60%**.
- Automated attendance tracking and payroll calculation, significantly reducing manual processing overhead.
- Designed real-time HR analytics dashboards with intuitive data visualizations for management reporting.

### Blog Management System | PHP, MySQL, Bootstrap, jQuery

Content Platform

- Developed a full-featured blogging platform with user authentication, post creation, and SEO-optimized content delivery.
- Built a comprehensive admin panel for post, user, category, and comment moderation with SQL-optimized CRUD operations.

## EDUCATION

### Master of Computer Applications (MCA)

Manipal University Jaipur

2026 – Present

Jaipur, Rajasthan

### Bachelor of Computer Applications (BCA)

Maulana Mazharul Haque Arabic and Persian University (MMHAPU)

2020 – 2023

Patna, India
